Available on the Android
App Store

HOW TO BACKUP:

1

Press "**Menu**" button.

3

Go to "**Quick Search**" or "**Event Search**" or "**Calendar**" & Press "**ENTER**"

5

Press "**Play**" button.

2

Go to "**Search icon**" and Press "**ENTER**"

4

Specify the date and time desired, then Press "**OK**".

6

To Finish PLAYBACK, Press "**STOP**" Button.

HOW TO USB/DVD BACKUP:

1

Format your Memory Stick and Plug it in the front USB port.

(note: You can also use DVD+R type Disk).

2

Press the "**Backup**" option available on the DVR's front panel. Or, press "**Menu**" then go to "**Backup**" option using Remote control or mouse.

3

On the Backup setup page, make sure you choose the "**Backup Device**".

4

Specify the START, END Date and Time desired to BACKUP. Press "**OK**" to start BACKUP. (Note: Make sure that both time & date are within the recorded data START TIME & END TIME).

5

Take into consideration the Data Capacity to Backup/Use the "**Estimate**" option to double check the capacity required.

6

An incremental backup percentage bar will be shown. Wait until the machine displays BACKUP SUCCESS.

7

Viewer Software will be downloaded automatically.
